Customer Reviews

Short, to the point chapters with suggestions on how to apply to your life at the end of each. Some of the stories within applied directly to my situation, others at a different level. Many of the writers are familiar being those I've read on the Catholic Institute site. Meant to be read and applied over and over which I intend to do after having read it through. The last chapter I have yet to read, but isn't part of the "guide" chapters. I believe this book to be a very useful tool if you find yourself seeking the other person with whom to follow your journey.

I found this book very helpful in combating the inevitable feelings of hopelessness that arise in dealing with the dating world. The book includes action steps and suggestions for prayer. It also contains suggestions to increase one's effectiveness in the sometimes frustrating area of online dating. It is not a book to read once but to work with on an ongoing basis. It is worth much more than its modest price. Highly recommended.
