Africa Executive [Laminated] (National Geographic Reference Map)

Synopsis

National Geographic's map of Africa is as attractive as it is functional. The entire continent is rendered in the Executive style with an antique color pallet, clearly defined international borders, shaded relief, and easy-to-read fonts. Place names, bodies of water, airports, major highways and roads, as well as cartographic patterns used to depict sand, lava fields, swamps, dry salt lakes, intermittent lakes, salt deserts, and areas below sea level are shown as well. This map also includes an informative inset on climate and terrain with a topographic map of the continent and individual insets of the 10 island nations surrounding Africa. Coverage includes the following countries, their capitals, and major cities: Algeria, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Democratic Republic of the Congo, Republic of Congo, Côte d'Ivoire, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Morocco, Mozambique, Namibia, Niger, Nigeria, Rwanda, Senegal, Sierra Leone, Somalia, South Africa, Sudan, South Sudan, Tanzania, Togo, Tunisia, Uganda, Zambia, and Zimbabwe. The island nations shown are: Canary Islands, Madeira Islands, Comoros, Seychelles, Mauritius, Rodrigues, Reunion, Sao Tome and Principe, Bioko, and Cape Verde. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:14,244,000 Sheet Size = 24" x 30.75"

Book Information

Series: National Geographic Reference Map

Map: 1 pages

Publisher: National Geographic Maps; 2015 edition (October 13, 2015)

Customer Reviews

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

The original product is fantastic, however it did come a day late, and was damaged in shipping. It was squished in the corner of a heavily crumpled box, creasing the laminate many times. :/ However I did get a map like this of the other five inhabited continents, and they were all fine and high quality, so I believe this was a one time issue.

For the price this is a very detailed and comprehensive political, strategic resource and geographical map of Africa. I used to have the larger version of this one last year (until someone stole it) but it was 3X the price. It more than meets the needs I have for it.

The map was crushed by a hard back two volume set of books that was floating freely in the box. This is really bad and I am highly disappointed.

Great laminated map. I've just gotten mine framed and it looks fabulous and would make a great gift. I would highly recommend.

I like that it has the countries outlined and many towns and all the major cities, then other information. I would like an atlas of Africa so I could sit and hold and and study it.. I love maps!

as expected, no surprises

Really nice map, great quality.

The best single African map I have seen. Excellent detail.
