Customer Reviews

We had planned to take a trip to the Dordogne this fall, and spent several hours planning with guide book and this excellent map. It's been recently updated, and proved to be accurate as consistent with our two recent guidebooks and the recommendations of friends. Like others in the series, it folds up nicely and can be used while driving without interfering with steering or shifting. In the event, we decided on a week in Paris, instead, but will save our notes, go on that trip in the spring, and update this review at that time. Robert C. Ross October 2016

I lived in France for ten years. No one there would think of setting out on a new trip without the relevant Michelin map and corresponding Michelin Green Guide.

A huge regional map of the area 3 feet x 4 feet!

Excellent. My husband is using it right now to plan tomorrow's adventure..

I love poking around on this wonderful map. When I finally do visit Lascaux and environs I'll have this map with me. It seems to have every possible road and site to see.

No review necessary. Thank you.

Looks great - will help us on our trip to Dordogne
