Biology: Student Text For Christian Schools: Books A&B

I just received Volume B of this book thinking I was getting Volumes A and B. According to the the book I have, Book A is pages 1-442 under separate binding while Book B is pages 443-832 with Laboratory Exercises L117-L227. Each semester of this course is one book about an inch thick, nicely laid out with great color diagrams. This item description is for two books with the corresponding lab exercises in each volume, but it's easy for sellers to miss this point - fortunately my seller was wonderful.

great book; good explanations; love the study tips at the beginning

I only received volume A. The price was good but the ad clearly said "Volumes A & B". The book is fine.

I had used public school textbooks for 20 years of my teaching career. I have used the Bob Jones Text for most of the last 24 years. It is the best biology text by far.

Really a treat to get something so usable. My child almost needed it for major surgery. I was pleased to find this.

This is the second attempt at buying this set of books. The first time I was sent only the A book, so I was glad to find this seller. They sent the books in excellent timing and it was both set of books as described. They were in excellent condition.

Perfect

As advertised
