An activity book filled with adventure. I love it! Animals, nature and healthy foods mixed with science and math. It is right up our alley. My son didn't get bored because each page was different with a

new activity, whether it was naming the animals, drawing foods for the farmers market, or helping to fix a problem Maya had. We are always looking for new craft ideas too and some of the pages helped you develop projects to make outside the book which was super fun.*I received this book free to try out. All opinions are my own.

Book keeps kids interested with a wide variety of activities, story, and open ended problem solving. Fun to do together with kids to see what they can imagine and come up with! Some activities are quick but overall the book keeps kids busy, curious, and learning. We loved the STEAM and problem solving activities the most!

Kids love this book!

Myra Makes is INCREDIBLE! It's rare to have a book that keeps me as entertained as the little ones!
