Nothin' To Lose: The Making Of KISS (1972-1975)

Synopsis

Nothin' to Lose: The Making of KISS (1972-1975) chronicles, for the first time, the crucial formative years of the legendary rock band KISS, culminating with the groundbreaking success of their classic 1975 album *Alive!* and the smash single "Rock and Roll All Nite," a song that nearly four decades later remains one of rock's most enduring anthems. Drawing on more than two hundred interviews, the book offers a captivating and intimate fly-on-the-wall account of their launch, charting the struggles and ultimate victories that led them to the threshold of superstardom. Constructed as an oral history, the book includes original interviews with Paul Stanley, Gene Simmons, Ace Frehley, and Peter Criss, as well as with producers; engineers; management; record company personnel; roadies; club owners; booking agents; concert promoters; costume, stage, and art designers; rock photographers; publicists; and key music journalists. Many of KISS's musical contemporaries from the time, most of whom shared concert bills with the band on their early tours, also lend their perspective via new interviews; these include Bob Seger, Alice Cooper, and Ted Nugent, as well as members of Aerosmith, Black Sabbath, Rush, Slade, Blue Öyster Cult, Mott the Hoople, Journey, REO Speedwagon, Styx, Raspberries, The James Gang, The New York Dolls, Iggy & the Stooges, The Ramones, Suzi Quatro, Argent, and Uriah Heep, among others. The result is an indelible and irresistible portrait of a band on the rise and of the music scene they changed forever.

Ken Sharp is the author of *Starting Over: The Making of John Lennon & Yoko Ono’s Double Fantasy*, *Elvis: Vegas ’69*, *KISS: Behind the Mask*, and numerous other books. He lives in Los Angeles. Known as rock’s ultimate showmen, Paul Stanley and Gene Simmons founded the hard rock supergroup KISS in the early 1970s. Since then, KISS has sold more than eighty million albums and performed more than two thousand shows around the world, and is still touring today. Paul Stanley is the frontman and rhythm guitarist for KISS, which he cofounded in New York City in 1973. He is the designer of numerous KISS album covers, costumes, and concert stages, in addition to writing many of KISS’s most successful songs. With sales of more than one hundred million records worldwide, KISS sits atop the list of American bands, with the most gold-certified albums earned in history. Along with his bandmates, Stanley was inducted into the Rock and Roll Hall of Fame in 2014. A painter, with art sales reaching two million dollars; a solo musician; a musical stage performer; founding partner in Rock & Brews restaurants; and co-owner of the Arena Football League’s L.A. KISS, Stanley is a committed and active supporter of various Wounded Warrior Project organizations. He lives in Los Angeles with his wife, Erin, and four children.

Sharp has become an invaluable resource for KISS fans, and should probably hold a ph.d. in KISS. This is an excellent companion to his and Leaf's 'Behind the Mask', a thorough examination of the early phase of KISS' career, an oral history told by every person you could possibly imagine that had a big, small or completely obscure part in, or observation of, the events that created KISS. From the breaking up of Wicked Lester and the founding of KISS in 1972, to the major breakthrough that was 'KISS Alive!' in late 1975, and every single beat in-between, this is the definitive story. One can only hope that Sharp will compile a companion piece that discusses the even more dramatic period of 1976 through 1978, because this read is addictive.

It's great reading about the beginnings of my favorite band, KISS. What's great about the book is all the eyewitness accounts from over 40 years ago. Enjoy!

Most people buying this book will already be card carrying members of the KISS Army, and there is enough fresh content in here around the formative years that will satisfy them. What I didn't expect was how important a part the whole push behind KISS was, to get them airplay on the radio, or gigs in high school halls. It was a lot of hard work, and money invested, to get the band to where they cracked it, and no shortage of faith was provided by Bill Aucoin and Neil Bogart in particular. I also appreciated that this book wasn't all kiss arse to the band, with people giving their honest opinions so we get a more balanced view. And this manages to enhance the guys in the band in my eyes, and they were all (at this exciting stage at least), four decent but different guys living their dream, doing it tough but paying their dues. Even with their talent KISS almost didn't make it, so it just goes to show how hard it is if you want to make a living from rock and roll.

I'm only about half-way through this book but I am enjoying it immensely. Fans who've read everything else will STILL find lots of cool tidbits throughout this well-organized retelling of their early years. Even the familiar stories are fleshed out with all sorts of little details that really bring you back to those early days and make you feel like you are there. I put it right up there with Chris Lendt's "Kiss and Sell" (which picks up just where this book leaves off), "Kiss: Behind the Mask," and the Paul Stanley autobiography. Highly recommended. (I didn't give it five stars only because I didn't want casual readers to assume I was the sort of fan who just puts 5 stars on everything, but actually it's good enough to get them all.)

Told through a mix of multiple interviews criss crossing years, but mostly chronological, this book was difficult to read at time. It was, however, truly fascinating to read to story of how KISS got started. To see all the behind-the-scenes goings on of the management and road crew was terrific. It was also neat to see so many photos from their early days. All in all, it was a difficult, but rewarding read for any KISS fan.

I've been a fan since '78 .. I've heard bits and pieces of "the beginning" as everyone else has .. Read all the interviews and this book stands out to me because it's a verbal account from multiple points of view .. Step by step .. We all know that one event can and does look different even from people who were in the same place at the same time .. That's why this book was so enjoyable .. You read several accounts of the same life-changing situation told by people who were there .. Couple that with what you already know or have heard .. And I think this book takes you as close as you can possibly be having NOT been there ! A must for any KISS fan !! I was sorry that I came to the end ... But I'm sure this book will be the basis for the movie .. And I'm sure there will be a second book ... And movie ... Lol ..

If you are a Kiss fan or not, this is a great read for anyone who wants to know what type of personality it takes to make it in the music business or any other business for that matter. The fact that Ace, Peter, Gene and Paul were able to stick it out like they did in the beginning with little to no resources says a lot about them. The traveling alone would have had others falling by the wayside early on. Ken Sharp's interview format was very appealing to me as it informs the reader who said what and when. These quotes come from the people who were there. And how did he find all these people anyway? Amazing. Great insight on the attitude of some headliners toward the opening acts and how Kiss was different when they started headlining.

Initially, I just expected this book to have interviews with the members of Kiss telling us about the trials and tribulations during the early years. But this book delivered that and so much more - with interviews for road crew members, record company executives and best of all, thoughts from other musicians and performers of that era that had some level of interaction with the band. I am glad I purchased this book. It dovetails perfectly with "Kiss - Behind The Mask."
