Customer Reviews

If you like the first Grimm Fairy Tales book you will like this one. It is a darker themed one, still some super hero girls and sexy killers along with a few different creatures and then just a few SUPER weak pattern pages. Same quality as the first :)

This is a nice coloring book. Be warned though, there are a lot of busty women in this that are scantily clad. The pictures are creative. I especially love the one with the werewolf creature. The pictures are not overly complex, like some adult coloring books, so they don't take too long to color. What is nice is that the pictures are very different, so the variety is great. Overall it's a nice book.

Disappointed with the Simple artwork. I loved the first book, it was all around the same artwork and

all very detailed. This one has a lot less detail. and it came out later than it was supposed too.

This book is "ok," nothing too exciting. Still hate the pattern pages they throw in. Glad to see Jamie's art still in these, but missing J Scott Campbell. I think the cover is a bit misleading too. I was hoping more portraits were going to be in this book. They should really try doing themselves instead of a huge mash of whatever they find to throw in. Base each book off a certain comic series etc. I liked the Alice book for that reason. Doubt I will buy any more of these. I think 3 is enough for me.

Most of the drawings are a bit simpler than the first coloring book.

i absolutely love this coloring book! this is the third copy I've got in the past year and a half, it keeps me wanting to try out different styles and mediums of the coloring. I highly recommend this coloring book.

If you're a fan of the first grimm's adult coloring book then you might like this one. If you're a fan of horror/occult images you will definitely like this book. The picture on the cover is deceptive if you're looking for sugar skulls this is not the book for you. Paper is an ok grade no perforated pages. I'd stick to colored pencils or put a page in between for wet mediums.

Unfortunately, I returned this book because it contained too many pictures that had a sketch design instead of clean lines. While some of the pictures looked like they may have been enjoyable to color, too many pictures gave me anxiety. While this is a nice book, it did not suit my needs. It would have been helpful if the seller provided more samples from the book. I don't want to give the wrong impression. This is a nice book. It just wasn't a good fit for me.
