Customer Reviews

I LOVE the recipes in this book! I'm so happy to find a new one (there old one fell apart, I used it so much)! Yeah!

Several home moves ago, I had a marvelous little book I'd bought for a buck. Its stunning feature was the deconstructing of measurements and times and other tips in the intro. It was difficult to know which cookbooks could duplicate this feature that I looked for. The book proudly sits atop my microwave!

Great book for getting everyday microwave cooking times. I would purchase again. very good transaction. good service. all is good.

This is the second time I have purchased this cookbook! One for each place. Has easy, tasty recipes! Give it a try!

i HAVE ONE AND BROUGHT THIS AS A GIFT. Arrived in perfect condition. It is the only

microwave cookbook that I have where the finished product looks like the pictures.

just the book I needed. Wasn't disappointed and so happy that I found it. It has given me quick and easy ideas to prepare meals and desserts for those last minute type sit downs. A book worth having for yourself or give to someone special.
