Songwriting Without Boundaries: Lyric Writing Exercises For Finding Your Voice

Synopsis

Infuse your lyrics with sensory detail! Writing great song lyrics requires practice and discipline. *Songwriting Without Boundaries* will help you commit to routine practice through fun writing exercises. This unique collection of more than 150 sense-bound prompts helps you develop the skills you need to tap into your senses and inject your writing with vivid detail. Effectively use metaphor and comparative language, add rhythm to your writing and manage phrasing. Songwriters, as well as writers of other genres, will benefit from this collection of sensory writing challenges. Divided into four sections, *Songwriting Without Boundaries* features four different fourteen-day challenges with timed writing exercises, along with examples from other songwriters, poets, and prose writers.

Customer Reviews

It gives good strategy on ways to expand your vocabulary and connect words in different ways. It gives you different ways and structures to write songs. It gives you exercises to help improve the quality of your writing as well as the speed.

Great guide for a first time song writer.

Item arrived on time and as advertised.

Excellent resources for improving creative songwriting and a crucial resource for the Berklee Creative Writing: Finding Your Voice course.

I found this book of exercises really helped me move away from effort into intuitive creative writing. The examples are really helpful, and the book is written as if the teacher is in the room talking, creating a relaxed experience. I recommend it for anyone who needs a boost in their writing skills.

And replaces it instead with boundless options. It will change the way casual and novice songwriters look at songwriting, and reduce hours invested trying to produce the perfect line into lyrics that make sense to the ear!

I've been a follower of Pattison for a couple of years now

Feel like some of the exercises are a bit redundant or silly. That's just me. Most of this book is pretty solid though.
