Customer Reviews

With more than 100 illustrations by Karin Kretschman.

This is one of my favorite cookbooks of all time. Buy it now. Start a mass protest movement until they reprint it! I learned how to make potato gnocchi from scratch with the beautifully drawn illustrations. Super easy, super cheap. Incidentally, I had to repurchase this cookbook because I lost my original in a move somewhere (which I had originally stolen from the book sale at the local public library when I was 14, I know I'm going to hell). Couldn't for the life of me remember the name of the cookbook until I was like 'classic italian cookbook, maybe?' googled it and it was the first hit! Hot dang! Bought it immediately, but wished I had spent the extra 4 dollars on the hardcover. My only problem with this is the actual book itself. It's the size of a sleazy dime store romance novel you pick up at Ralphs. Do yourself a favor and splurge for the hardcover version, it's totally worth every nickel.

I bought a paper-back copy of this book back in the 1980s, and I used it so much that it finally fell apart. No one was better at providing instructions and recipes for Italian cooking than Ms. Hazan. It's one of those cookbooks that are as pleasurable and entertaining to read as they are to cook from. The vendor was terrific as well - the book was in better condition than anticipated and arrived

promptly.

I found the book to be in incredibly good condition despite your warning that it may have suffered significant water damage. Apart from obvious aging and a very slight indication of possible water damage, it appears to be unread. Thank you Richard

The best reference and cookbook there is on true home cooking. The flavors achieved are spot on. Most of the recipes, especially the pasta dishes, are from the Emilia-Romagna district, considered by most as the culinary capital of Italy. The illustrations, particularly those showing the method of rolling out homemade pasta dough, bring me back to childhood days. An absolute must for understanding the essence and soul of Italian cooking. .

My current copy of the book, purchased in 1977 is falling apart. I am buying a replacement for it. Without doubt her recipes are easy to follow and produce delicious results. I like the way she suggests a complete menu for each recipe. I also own her second book but this is the one, the now coverless, page-loose one I prefer. Buy it, your family will thank you.

This was a gift. She loves it. I have her other book.

My Italian friend could never stop talking about this book. The most authentic recipes are here. Too bad the book was never reprinted...

This book was written by someone with a passion for food, teaching, and the art of presentation. Marcella Hazan's style of writing is a joy to read. She brings love into the kitchen and is very traditional about her heritage and staying true to it. If you want to cook it right the first time buy this book!
