Customer Reviews

Sylvan Learning is the premier provider of tutoring services for grades pre-K to 12 in North America. With over 850 locations in the United States and Canada, Sylvan provides individualized tutoring services, both in centers and online, in subjects including math, language arts, writing, study skills, and more.

My kiddos love using this as a math center. They go in pairs and take turns quizzing each other. I love that the concepts are mixed together so they really have to read to find out what it's asking. I teach 2nd grade, so obviously I went through and took out some of the ones that were too high for them.

I figured that there would be more simple math cards in here rather than visuals. Overall, I am pleased with it but it just wasn't what I thought it would be.

Very good product and seller. Delivered as promised.

They do their job, but are overpriced for what they are.

these are perfect for my second grader, they have helped him a lot and are sorted perfect. I would recommend this product to anyone.

Very helpful.

Great! My daughter does them all by herself! The cards explain what needs to be done very well!

Loved them and the kids loved them we used them as a whole class on the projector. Perfect for place value
