Book by Varley, C.

Usborne books are a favorite of our 3 children (my husband and I as well!) this one is no exception. Clearly written and wonderfully illustrated, it is a perfect addition to any home research library. My two oldest love to pick it up and just read it for pure enjoyment, and learn something new every time they pick it up. My husband and I have used it to explain topics in geography that I have forgotten (or never learned!)

a gift to my brother , will buy next time. Nice and valuable. LOVE! LOVE! LOVE! just fine,
