Customer Reviews

Nice mix of the various generations. Some were easy enough for little guys and other pages were more suitable for adult coloring. More fit for a family activity than other coloring books.

There is a nice selection of photos in this coloring book but the reason I knocked it off a few is some of the pictures are really hard to read. Some of the pages are more scratchy drawings

This is an awesome adult coloring book. There are tons of pages to color and I cannot wait to get started.

Came in perfect condition. The coloring pages are beautifully illustrated, and they include characters from the prequels, originals, and the Force Awakens. The pages are all one-sided so you can tear

them out and put them up or give them as gifts. I can't wait to take this on my road trip!

Great for Star Wars fans! All the movies are included in this book from the first one in 1977 to Episode III. There are even movie posters you can color! Great line work with a range of art. Pages are thick and one-sided. Makes a great gift for Star Wars fans!

A truly wonderful coloring book! The pictures are great, and it's very nice to see a Star Wars color book where Darth Vader hasn't already been colored black.

This is a great coloring book for star wars fans of all ages.

This was a present and they love it!
