I have been listening to the audiobook for years, and have had outstanding life changes as a result of it. This book takes you through the stages of consciousness, and is a roadmap to creating a vision that will not fall apart on you once you think you have achieved your life goals! Let me explain, at one point I put in a ton of work to manifest the business, house, cars, and family of my dreams. Once I had everything going for me I was so unhappy, and I had nobody to blame, all that I had asked for had come to be. Since taking the steps to allow the vision to come to me, instead of forcing it, I can say that life is good! I do attend his Spiritual Center, and I may be biased, but this work is a must have if you want to transform your life.

This is a very interesting book with his life visioning process. I think it just might be the way to finally figure out what to do with my life. I plan to practice the Life Visioning Process to attain a happier and more fulfilling life. I totally recommend this book!

My partner and I appreciate reading this book together. The visioning process presented later in the book? Excellent for couple's work together, and we've found it informative for brainstorming for business- and project- building. I had fallen off the meditation wagon. The book inspired me to meditate again (and was a reminder that not all meditation is "mindfulness" meditation; receiving insights consciously about one's next step is a healing meditation process, too).

A wonderful resource for self-discovery. It came to my awareness at a perfect time. I plan to practice the exercises and see where it leads me.

This is an excellent book to move beyond the idea that you can manifest anything, including great wealth, by simply thinking it. This author ties true manifestation with life purpose. And, he adds two stages beyond the stage of manifestation - the last stage to reach the ultimate goal of "being." He walks you through the process in a genuine and practical manner, one that can be learned and practiced by anyone dedicated to finding spiritual awareness, being One. Thank you for living your gift, Michael, and sharing it with us.

This book is a profound guide for a deeper understanding and inner awakening. A must read.

So far I like this book but I'm still trying to work my way through it.

I saw him on Oprah's Super Soul Sunday and wanted to enhance my spiritual journey so I purchased 2 books of his.
