Anna Dewdney (www.annadewdney.com) is the author and illustrator of the bestselling Llama Llama series. She lives in southern Vermont.

The Llama Llama board books are much simpler than the original paper books, which is fine for younger kids, but may have a hard time keeping their interest as they grow. Llama Llama Nighty Night is that way for my kid (20 months old) - too simple, moving on Mom! However, even though Llama Llama at the Beach is simple, the touch/feel aspect keeps his interest, so we haven't outgrown this one yet. We live in Florida, so we always read this one in the days leading up to a beach trip. It's a good book for little ones, but I don't expect my toddler's interest to last much longer.

As usual, Anna made a cute little book about Llama and his Mama. I wish it was longer but it's just

one of her little board books. It's cute how she added touch n feel details though. We own almost all of the Llama books and they never disappoint.

I love Anna Dewdney and I miss her already. I bought these books for my daughter 12 years ago and have gifted them to every child for baby showers, birthdays, holiday presents, ANY TIME I can. These will be a BIG hit if you buy them. I just love them.

Great book for young children. Rhymes, has textures.

Fun reading for the infants in my classroom. Thank you

My 3-year old loves almost every Llama llama book, and this one is no exception. While it is definitely geared toward babies and younger toddlers, it is engaging and so cute. Each page has a sweet little rhyme or two describing llamas day at the beach along with a touch-and-feel picture all with different textures. This board book (and the others) are much shorter than the hard and soft back books.

We bought these books for my granddaughters second Christmas 25 days of books.

short, but my Grand daughter loves Llama Llama
