Customer Reviews

The book itself is great. These are perfect for taking to church. My 3 yr old son is quite a wiggler and this book keeps him entertained for a while. Also, I ordered this book the first time and the seller had said it was in VERY GOOD condition. Upon receiving the book I realized there was not a single flannel cut out!!! The seller issued me a refund and I was able to order it semi complete from another seller.

Only received book,no felt characters!!!

We bought this to help our kids stay quiet during church. We'll try it out tomorrow. It looks great though so we are excited!

This book gives children the opportunity to participate in Noah's journey by placing felt figures (kept in a snap pouch on the front of the book) on the illustrated board pages. Not only do children learn the story of Noah's Ark, but they learn other important pre-K concepts. I have my son (2 1/2 years old) sort the 24 felt figures into three categories (living things on land, living things in water, and non living things). He loves how each time we read the book he can decorate each scene his way. I should mention that the felt pieces are small and can pose a choking hazard for children under three. My son and I use the book together so this is not a problem.
