used this for a book study group. Very useful

Have used this study book series (Nav Press) for over 25 years. Provides excellent discussion questions for the serious Bible study student without doctrinal bias, so it can be used for mixed denominational groups. Motivates the user, through questions and commentary, to get into reading Scripture for themselves. Very useful teaching aid.

Item did not match description at all. Book was described Like New and half of book was written in. I expected like new to indicate no writing at all. Misrepresented item not worth ordering.

Awesome Book! Loved it!

Our bible study group has been looking for a new study and Romans seemed to be just what we needed. We always come away with new insights and it's in part because of the format of this book. It helps us to think and encourages everyone to participate and dig deeper. We will be buying more study books from this publisher.

This guide is easy to follow and idiot proof. It includes specific questions for every reading with optional questions to do in a study group. It also has several specific additional scripture readings throughout the lessons. Further, it begins with background information about Paul and the Church of Rome.

These are my favorite Bible study tools. This teaches you what questions you should ask yourself

as you work through a text. Has also been great for others in my Bible study.

Quality product, careful packing/shipping, well satisfied. Definitely recommend!
