Everything is Great and on point. I love this and I learned so much but solos on this thing really get u used to a side style then the old A7X stuff

Doesn't include at James

This has all the exact guitar recorded versions of the album. I would suggest buying these books rather than relying on an individuals "interpretation" on free sites. Because they are usually wrong.

My 16yr year old son finds it easy to read and informative. I would recommend to beginners or experienced guitar players.

This is a great book. Very clean transcriptions that are easy to follow. Would highly recommend this to anyone to learn these songs.

like new excellent

Awesome tab book!

I Bought this for my son in law for Christmas. He said it is great. It came in very quickly.
