James H. Stock is Professor of Economics in the Department of Economics at Harvard University. Previously he was the Roy E. Larson Professor of Political Economy at the Kennedy School of Government, Harvard, and Professor of Economics at the University of California, Berkeley. He has written more than 90 professional publications, including a popular undergraduate econometrics textbook (co-authored by Mark Watson). He is a Fellow of the Econometric Society, the former chair of the Board of Editors of The Review of Economics and Statistics, and is a Research Associate of the National Bureau of Economic Research. Stock did his graduate work at the University of California, Berkeley, where he obtained an MA in Statistics and a PhD from the Economics Department under the supervision of Thomas J. Rothenberg.

I'm not usually a big textbook reader. Half my classes this semester I haven't even opened it. But for my econometrics class this book is a MUST! The idea summary boxes on the side and the chapter summaries are very helpful for studying. There's a lot of relationships, formulas, and concepts which you will really want this book for.

It did not include, the "Update Plus NEW MyEconLab with Pearson eText -- Access Card Package (3rd Edition) (Pearson Series in Economics)" It was just the text, so it should've been priced much lower or at least labelled accurately.

Excellent book

i rent the book and it came with the access code
