# Between Death And Life: Conversations With A Spirit

## **Synopsis**

A well-written book that is a curious reminder that our in-between life with all its information lies within our subconscious. Dolores has accumulated information about the Death experience and what lies beyond through 16 years of hypnotic research and past-life therapy. While retrieving past-life experiences, hundreds of subjects reported the same memories when experiencing their death, the spirit realm, and their rebirth. This book also explores: Guides and guardian angels, Ghosts and poltergeists, Planning your present lifetime and karmic relationships before your birth, The significance of bad lifetimes, Perceptions of God and the Devil, And much more.

Written in the format of interviews between hypnotherapist and client, this book explores the time between lifetimes (sometimes called the astral world) as reported "first hand". As a student of yoga philosophy, I have some familiarity with this subject. But I appreciate the cheerful, insightful and sometimes humorous details which give me much more depth in and appreciation for the vast and benign realm of spirit, of which our familiar world is but a small part.

Everyone should read this book. Embrace the hear-after with anticipation. Live your current life well. Dolores' regressions give you the information we should all use as a guide to live a good life and not be afraid to pass on and not be worried about our loved ones who passed before us. Very good hand-book for us all>

I enjoyed this book because it was easy to read and I felt it answered or made me think about the place we go when we pass. I am aware of this line of thinking so it reaffirmed that belief. The book encouraged us to think about how we can grow in our life on earth. To look at events in life as a learning experience for ones self and those who are around us. I believe it did a good job encouraging us to not be judgemental to others or ourselves because it will look quite different in the spiritual realm.

between death and life this is a book you'll want to read. It's important for everyone to know there is nothing to be afraid of when we die...it's only the beginning. You will learn so many things you never knew before like why we choose to come to earth and why we experience certain things in our lives and so much more.

Arrived quickly. Dolores Cannon's "Between Death and Life" is truly fascinating. She also repeats common themes I've read in other books and articles, but her way of presenting them is rather unique, I believe. Her conversations with "spirit" were done through her hypnotized clients. Ms. Cannon is now dead, so likely she'll be researching and documenting in the afterlife what she wrote about here on earth.

Absolutely incredible reading! I had read Brian weiss' books and this is extreme validation that religion has it ALL WRONG!

I appreciate the efforts and the boldness of Dolores to explore and iterate on this 'mystery'. There is a lot of resonance with what feels more true. If the stories came from varied individuals, it seems that it did, and the information is consistent throughout, we have a lot to gain from the study and practice of the information. Life on Earth, on this plane is purpose-full.

My 3 kids were killed on February 22, 2015 my dad turned me to this book and it honestly has brought some good info to me and has helped me see there is more to life than what I'm allowing.
