Flutter! Fly! (Indestructibles)

Synopsis

Announcing a brand new idea in publishing books for babies: the completely durable, completely safe Indestructibles. Published on the same paper-like material used in shipping envelopes, Indestructibles are 100% baby-proof: chew-proof, drool-proof, and rip-proof. That's because Indestructibles not only will not tear or turn gummy with teething, but they are also completely washable. Indestructibles are also energetic, beautiful, and created just for baby. The printing material reproduces color artwork with uncommon depth, and with no residual inkiness; the artwork, paintings by Kaaren Pixton and reminiscent of Eric Carle, is happy, each page a simple, colorful image of an animal or bird or insect against a rich, textured background. The effect is 3D-like and completely visual. There are no words, making each perfect for parents and babies to look at together, with mom or dad telling the story. Three titles launch the series: *Creep! Crawl!* about animals that crawl, *Flutter! Fly!* about animals that fly, and *Wiggle! March!* about farm animals—books babies can really sink their teeth into.

Amy Pixton, a mother of triplets, created Indestructibles after bits of traditional board books found their way into her babies' mouths. Amy lives in Kansas City with her husband and their three children. Kaaren Pixton has been making art with children for many years. Kaaren's studio is at her home in West Linn where she lives with her husband, one dog, five chickens, goldfish in a pond and countless grandchildren romping in the gardens.

My daughter loves paper, eating it, smushing it, ripping it. At 6m she can't understand why I am always taking it away. Now I can give her this book in exchange. She loves it. It crinkles and smushes just like her beloved paper, but doesn't rip or disintegrate. This is just day one but a huge success. I will update if it is destroyed or something weird happens but currently this is a two gums up from baby AKW.

These books are fantastic! I ordered two of them, and while I wish this book had more details other than just the one picture on each page with no words, I have to use my imagination to keep the "story" going for baby. But she doesn't seem to mind at all, she just loves loves loves that she allowed to grab, crinkle and crush this book all she wants and I can just let her! It makes a very satisfying crunching noise for her efforts which she loves. It already is very bent and wrinkled, but I feel it only makes it more enticing for her, easier for her to turn the pages and more fun for her to flap and fling. It will only get better the more she tries to mangle it. We are already planning to buy more!

This book was just okay. I like the Indestructibles in theory and the books with words in them are great (bright and fun to point out objects and help baby learn words)...but this one is just okay with one image per page and no words. I knew that going in...but my daughter isn't interested in this one at all. On the plus side...while I would recommend the books with the babies and words over this one...the positives about this book are that it is indestructible, it is very thin so it takes up no room in the diaper bag compared to board books, and the illustrations are cute (even if not very interesting to my daughter). Maybe at some point in the future my daughter will find it more interesting...but at 18 months old it is a dud.

I love these books!!! I bought them for my in-home daycare and the children chew on them TRY and tear them and are really rough with them. I have washed in the washing machine and dried in the dryer. I highly recommend!!

Love these books! They have beautiful art pieces in them and best of all, they are indestructible! They have few words in them which is great for building the imagination and creating your own story together.

My daughter has tried her best to destroy this book, but she has not yet succeeded! The illustrations

in this book are stunning -- I love the style. Even without words I think this book would remain of interest to kids from babyhood into childhood.

Perfect 'reading" for the youngest set of "readers" colorful stand up to chewing, slobbering, and the art of turning pages of these young readers.

Great non rippable books. very light and easy to hold for small hands
