## Customer Reviews

The book received was a photo copy from an 3rd party vendor in Florida. It had a color hard-bound exterior, but the inside had 0 color pages (as it should), and smelled like laser toner. I contacted the publisher who verified that the book was fraudulently produced. This rating reflects on the SELLER and not the actual book. The book looked like it would have been a great read if it were not for trying to read dark gray pages on black text (result of photo copying). Returned book.

For \$200 I expect more than one license. The standard is 6. Even 2 would be ok. One for the PC and one for a mobile device. I would return this if it wasn't required for a class.

Delivered on time. Had everything I needed within it. But really, how excited can you get about forensic accounting, but I got excited because it has in-depth stories and scenarios from which to

store for future experiences when in the field.

Book rental went great ... no issues. Good quality books.

Big confidence in my investigative accounting work!

I loved it. I used it to help create my senior project to get my BS in Accounting. It was just what I needed.

It's interesting to for accounting class.

Needed for class. Good book for background on investigating fraud.
