## Customer Reviews

I was hoping to find an Essential Elements book 2 for the recorder but apparently there is no such book. So, hoping a Hal Leonard book would fit the bill, I bought this book. It does pick up where the Essential Elements book 1 leaves off, but it has fewer exercises per new note learned so I am disappointed in that regard. However, the sample songs are full length songs and easy to play for the advanced beginner student. So, worthwhile to get: Yes! A stand alone book: Probably not.

My daughter is teaching herself, will buy more books. She went through book 1 and 2 so fast and is sounding good.

thank you ..excellent item and fast shipping

This book teaches students how to play the recorder quickly. I think that this book is great to have for your child or students.

good book
