Africa, Vol. 2: African Cultures And Societies Before 1885

Synopsis

Africa: Volume 2 is part of a series of books which adopts a new perspective on African history and culture, surveying the wide array of societies and states that have existed on the African continent and introducing readers to the diversity of African experiences and cultural expressions. Toyin Falola has brought together African studies professors from a variety of schools and settings. Writing from their individual areas of expertise, these authors work together to break general stereotypes about Africa, focusing instead on the substantive issues of the African past from an African perspective. The texts are richly illustrated and include maps and timelines to make cultural and historical movements clearer, and suggestions for further reading will help readers broaden their own particular interests. Africa provides new perspectives that challenge the accepted ways of studying Africa, flexibility for instructors to structure courses, and encouragement for readers who are eager to learn about the diversity of the African experience. Volume 2, *African Cultures and Societies Before 1885* provides a broad view of precolonial experiences and expressions in Africa. The book focuses on culture as a means of understanding both the traditions that thrived throughout Africa and the efforts of modern Africans to reclaim their cultural past in lands that have been divided and exploited by Western imperial powers.

Awesome. Using it for class textbook.

EXCELLENT!!!

good book...

it is very good.fast and excellent

This book is (after reading one for the reason why) appears to be a collection of Essays on African Cultures and Societies. The reason being that more information for African History must be extrapolated from linguistics and other sources than almost any other subject. This book can be dry at times but does come with review questions and a plethora of information.Bought it because it was required for a class, and well. I wouldn't have done that without the class.
