# 125 Brain Games For Toddlers And Twos

## **Synopsis**

Award winner of the Early Childhood News Directors' Choice Award, the Parent's Guide to Children's Media Award, and the National Parenting Publications Award. A young child's brain grows at a phenomenal rate in the first years of life. Revised and updated to reflect the latest research on how children learn, 125 Brain Games for Toddlers and Twos is packed with everyday opportunities to contribute to brain development. Each game is accompanied by an annotation on the latest brain research and how the activity promotes brain power in the critical period from twelve to thirty-six months.

## **Customer Reviews**

"I liked that it was simple to just pick up and use, and happily even my older children could use some of the ideas for interacting with their young siblings. Sometimes I'll find it hard to think of activities in the middle of a day, or I get stuck in a rut with activities, so it was nice to just leaf through and find something quickly that I could try with my toddler." - 2012 Mom's Best Award Panel --gh

Jackie Silberg, who has an M.S. in child development, is an early childhood advocate and popular keynote speaker. She received the Distinguished Alumna Award from Emporia State University, recognizing her current achievements as well as her long and prolific career. Jackie founded and directed the Jewish Community Center School of Music in Kansas City, Missouri, and worked for Channel 41 television, planning the music and performing her original music for a children's

program called 41 Treehouse Lane. She wrote and produced a television show for Time Warner called Just Kids, which addressed children's needs and interests. Jackie has worked as a consultant with the Discovery Channel, setting up their music streaming website. She has given workshops, keynote addresses, seminars, and family concerts throughout the U.S., Canada, Australia, Germany, and in Singapore. Jackie has served as an adjunct instructor at both Emporia State University and the University of Missouri at Kansas City and lectures at Johnson County Community College. Jackie is the owner of Miss Jackie Music Company.

My son loves to play many of the games that are in this book with me. They are all short, easy to understand and can be done nearly anywhere. I do have to say that if you have a toddler who has a short attention span, as many do, then you'll probably want to make sure you are in a spot with as few distractions as possible. This is such a well-written and worthwhile book. I have recommended it to friends who are looking for things to do with their toddlers that are fun and help build important cognitive skills.

This is a great resource book for teachers

The content may be decent but I cant read it because it is not formatted for kindle. So i just dont bother. Frustrating.

Love the revised version - more brain connections to activities, nursery rhymes and reading!

I gave this book to my niece who has one year old twins. She doesn't have time to read a lengthy book. She loved the great ideas that were easily accomplished with items around the house!

Useless simply said. I am quite disappointed about this book as I had some reasonable expectation. Do not buy it.

Lots of activities

The book has many simple ideas/games to do. It is helpful for some quick positive interaction with your young child. The used book looked new. I was happy with it.
