In 1927, Peter Dickinson was born in Africa, within earshot of Victoria Falls. When he was seven, his family moved to England, where he graduated from Eton and later Cambridge. After working on the editorial staff of the humor magazine Punch for seventeen years, Peter finally started on his career as a writer, which he knew he was meant for since he was five years old. His first book was published in 1968, and since then he has written almost fifty novels, for adults and young readers. His children's books have won great acclaim here as well as in Great Britain, where he has received both the Carnegie Medal and the Whitbread Award. Peter lives in Hampshire, England, with his wife, Newbery Medalist Robin McKinley.

If you have studied anthropology at all, this book is fascinating. This book takes you inside the minds of early modern humans and offers a glimpse of how our ancestors might have thought, talked, and interacted socially within a group- The Kin- and between groups. It is unlike any other book I have read. There are two stories going on in this book- one is all about Po and his group of people, and one sounds more like a legend, but I didn't really get how they fit together.
