## Customer Reviews

ITM Canada is the world's leading map publisher with over 400 titles in print. It has published a large series of maps covering Africa.

Used this on a recent trip to Ethiopia. Seemed pretty accurate, although place names sometimes vary. Not ITMs fault, the towns really do have several different English spellings or more than one name.

Not as updated as it should be.

This is great map. I have been to Ethiopia 4 times and this does a great job getting us to where we need to go. It also makes it easier to describe to family and friends where I have been to show them on a map.

Nice map. It included most of the information I was looking for.

I've been using International Travel Maps for over a decade. The clear illustrations and mapping information is right on point!

Generally a very good map for larger towns and cities. I was looking for a particular village that was not shown on the map so more detail would be helpful. For the typical traveler, this is an excellent map

Good

very good map of the land of Ethiopia. It is clear and big, easy to use and read, and nice
