Customer Reviews

Richard A. Johnson, MDCM, Clinical Instructor in Dermatology, Harvard Medical School, Clinical Associate in Dermatology, Massachusetts General Hospital, Associate in Dermatology, Beth Israel Hospital, Associate Physician (Dermatology), Brigham & Women's Hospital, Dermatologist, New

England Deaconess Hospital, Boston, MA. Professor and Chairman Emeritus, Department of Dermatology, The University of Vienna Medical School, Vienna General Hospital, Vienna, Austria.

This used to be a very good derm atlas. 2013 edition is an example of cost cutting by the publisher. The book "lost" almost 100 pages comparing with the previous edition: the pages are of cheap quality, very difficult to flip through as pages are sticking together; pictures got smaller; text is difficult to read etc etc etc. This is sad...

This book is amazing! Super helpful having descriptions and pictures side by side while studying. Unfortunately, the binding on this book did not last. I just purchased this book for my summer semester while began at the end of May, and while studying for my dermatology exam the binding has already broken and random pages have torn off. Great book, mediocre quality.

damaged

Great

Outstanding reference. Great quality photos.

This is a great book. Lots of pictures great information. The text flows smoothly the reference areas are comprehensive. I love having it as an ebook I can have it every where I go.

The web is great and you can get dozen of pictures if you know what to search. But this gives you the basic wide knowledge to be able to recognize different conditions.

It is a good book but has terrible binding! The bindings break after 2 months of regular usage. I never forcefully lay it flat or expose it to heat or anything, but the binding breaks and the book is barely usable now.
