Customer Reviews

"[A] wonderful little book."--Steven D. Price

Text: English (translation) Original Language: German

This book is chalked with step-by-step Klimke methods. Book starts with basic education from handling, foal-life transitions, and how to start with leading by hand while keeping every contact a positive experience! Book chapters follow the progression of training from lungeing/free schooling, saddle starting, then teaching the aids, etc. This book does incorporated the Scales of Training, with what each scale means and looks like, with how it relates to age and training of the horse complete with exercises to assist each level. Almost every page has a photo! Book can be a refresher for the experienced rider, but great for lower levels! I do recommend this book!!

While I find this book somewhat lacking in detail, it provides an excellent basic introduction to techniques for and concepts behind training a young horse for dressage. Klimke's approach is kind and compassionate as well as effective and logical.

This book gives the tools to enable an already knowledgeable equestrian to further strengthen their young horse schooling program. It should be required reading for any person who is investing the time and effort in training a youngster. Klimke offers solid, classic and well explained advice for creating the foundation every horse deserves in order for it to maximize its athleticism and attitude in whatever vocation is chosen for it.

While it is no substitute for working with good trainers, it is a great supplement. It clearly and logically lays out the foundation for a solid training foundation. There is a lot of great information and lovely pictures making for a nice read.

But they are hidden between a lot of extra garbage and fancy writing that doesn't actually say anything. What I did get out of it was worth it but, it wasn't much.

Great classic!

A classic

Dr. Klimke's advice is as sound and relevant as ever. I lent my other copy of this book out years ago and it was never returned. It's worth buying twice!
