Exactly what I needed to understand what motivates some people to be sooo mean in the work place.

Read this too late. I got laid off because I failed to play the politics game well. Read this and it filled my head with "should haves". Many lessons learned, and confirmed.

Not particularly illuminating.

Good quality book. I like many of the HBR books. Has many answers, but would still like more (like dealing with coaching and training). There is another book out about that subject, though. I would definitely recommend this book.

This book looks at a variety of situations that make the work day difficult: namely relationships. Most of the advice is really sound and I can envision applying. A book to use when you need help the most.

It's an eye opener and easy to read.

Great book, great vendor.

It's a very good and useful book. Highly recommended for everyone, does not matter your position. Simple and pleasant to read.
