Customer Reviews

The problem I encountered was that I was awakened by the sound of waves in chapter 6. So the next night I started on chapter 7; but the chapter 8 had a very similar if not the same sound of waves and awoke me again. I would love to be able to delete chapters 6 and 8.

I honestly couldn't believe the content of this audio book. It contained one chapter of how to relax your body for sleep (which we insomniacs have heard a zillion times before). And then every single following paragraph was recorded sounds- the kind I can get on my free phone app. Absolutely

preposterous that this could ever be published. Had my purchase refunded immediately.
