This little cookbook definitely sets its self apart from the rest. Whenever I pick up a cook book for the first time I usually can find a few recipes I want to try. If I see about one in four I want to try,

then I'll purchase it. I WANT TO TRY EVERY SINGLE ONE OF THESE! I had such a hard time deciding which one would be first " I decided maybe to just start with the first one! My favorite cooking books have great pictures. I want to know what the end product is supposed to look like so I know whether or not I nailed it! And let's face it " most of know by sight whether we will like the food before us. And these pictures are fantastic " each one just as mouthwatering as the next! This is good for my teens and younger ones so they don't use up vast amounts of resources when the baking bug bites them. And using basic cake mixes help cut down the number of ingredients. Paperback is affordable, clear and concise directions " this great little cookbook is just a winner any way you slice it.

Great cookbook with a good variety of different recipes. I can see trying almost every recipe and the batch sizes are perfect for one or two!
