Antiques & Collectibles #150 in Books > Computers & Technology > Internet & Social Media >

eBay #3719 in Books > Crafts, Hobbies & Home > Antiques & Collectibles

Customer Reviews

There is some good advice, a lot of it is common sense but it is that way with any book like this. Some things are just going to be more obvious to some people. However, it can be a bit hard to read as it needs thorough editing. I appreciate the author taking the time to share his expertise.

An editor was very much needed, it was hard to follow, there were auto corrects that made have to read again to figure out what was going on, and, a few well placed commas would have done wonders. Loved the information trying to be shared but just so hard to read.

Quick info for any level sales. Worth my time for sure. Not well written but didn't matter because of valuable content.

Learned a lot. A good start if you want to start in this type of business. Easy and to the point.

oh oh-I did not read this book js

Waste of \$15

This book has a lot of information especially for someone who is starting out a business to sell online. I recommend reading

Good book for a beginner in Thrift Store merchandising. Very easy to understand and examples are appropriate about profit margin and keeping inventory. Excellent reminders of pitfalls in most explanations. It was as I said, for a beginner. More about fees for eBay & would have been more helpful to beginners to help realize how much of a true profit you would have.
