Customer Reviews

let's just use "the lemon song" as an example of what's wrong with this book. we're talking about one of john paul jones's best bass lines. taking the time to learn all the awesome round licks in that breakdown section is like taking a master class in line-construction. frigging excellent solo. disappointingly, this book takes you through one measly twelve-bar segment of the solo and then slaps a repeat symbol on the end of that last bar. there's so much more great material in those "repeats" and whoever did the transcribing completely skimmed on all of it to save pages. so this book becomes less about learning great bass parts and more about playing songs. and there's nothing wrong with that, but i wish i'd known that before i bought it. i'm now going to give this as a gift to one of my students. this book is a fine starter book for beginner to early intermediate bass players, but if you're an advanced player really trying to step up your game and infuse your playing

with new ideas, you're not going to get them here.

just what I needed!!!! its true, these are the simple versions of the Zep bass lines. but I am an amatuer musician, and this book is a perfect beginner. I love Zep, and the way Jones plays. These tabs are accurate and easy to follow. I will be using them to play these great tunes!

This was shipped very quickly, was in excellent condition, and purchased as a gift, the recipient LOVED it. Thank you so much. Would definitely recommend.

Any Zeppelin fan who plays bass shouldn't go without it. Especially The Lemon Song. Its awesome! Hal Leonard publishes exceptional music books

Easy to follow tabs...

Led Zeppelin music has been around for many years now. even younger generation musicians are starting to discover the music that is pure led Zep. This book helps a lot in developing and playing their song, very easy to follow and understand.

Great seller delivered as expected, I will order from them again!***** Great product as expected.

love it absolutely great
