Customer Reviews

I bought this new at a significantly reduced price and it came with the access code, which is what I really needed, but the book had a big rip in the front. You get what you pay for. The content of the textbook is great and at least all the flashcards in the back were in new condition. I can't really

complain too much because the damage is just cosmetic, but it was a great big rip in the left corner, starting from the cover and extending into the first 2 chapters.

Thanks
