Bought this for school and we barely used it. At least it came in great condition the book itself is not so bad.

This book was a great read.

I couldn't read it through and through, this is definitely for history nuts. I've never liked reading about people's lives. She was definitely an extraordinary woman, but I just wish the book was written in an excitable tone. The pages just seemed to drag on. I needed this for history class, and was happy after I was done with it. The actually book I got arrived on time, and it was really good quality.

Awesome Book! Great story!

I got it for my son and is very happy help alot

I read this for a history course. It is actually a very nice book. It is nice to see a feminine angle of someone so close to politics in the time of infancy for America. I was gladly surprised by some very nice viewpoints and moral outlooks that Abigail had.

School book. It serves its purpose. Written nicely.

It was a great book to read just to learn more about history. It was in great shape, and it arrived sooner than I expected, I had no problems whatsoever.
