Customer Reviews

I can't say enough about the Alfred's premier piano course as a teacher. They are a great improvement over the regular Alfred's series and certainly more interesting to the student. There is no substitute for putting in the hard work and practice but these books at least make it more interesting. I am heavy on theory in my lessons so specifically really like the theory books as supplement. They coordinate with the lesson book pages which is great.

I don't hate the book, in fact I almost exclusively use Premier Piano books with students. However, the last 1B Theory book I ordered at \$5.48, arrived with a good portion of the cover ripped off. I wondered why the price was so low. Nothing in the description indicated that I was ordering a damaged book. My student does not want it and now I have to find another book and either eat the cost of the torn book or go through the hassle of returning it.

I use these books all the . Tried and tested.

I am a piano teacher of 20 years and have switched to using this method. The theory book compliments the lesson book well. Totally I use a supplementary book for theory but find this to be a great substitute.

Excellent for helping kids in their piano skills and how to practice best. I would buy this again if it came to it..

Meets every expectation!

Great series.

Great course
