# Vegan Bodybuilding And Nutrition

## Synopsis

Veganism and bodybuilding are not two words often paired together, but it can be done. One of the most common questions vegans are asked is "Where do you get your protein?", a necessary part of any bodybuilders diet. Vegan Bodybuilding and Nutrition was written to answer questions as such. Here is what you can expect from this book: A concise discussion about the vegan diet, including the health benefits and the concerns Tips on how to become a better vegan bodybuilder and overall athlete The knowledge needed to equip you for a long-term commitment to a vegan diet without compromising your bodybuilding goals Fifteen vegan recipes that you can use to help you with your muscle building and fat burning goals. There is no better way to kick-start your transformative journey than to embrace the vegan revolution and rely on it to power your athletic and bodybuilding goals. Whether you are new or old to veganism or bodybuilding, this book will help you find your way to reaching your goals.

#102 in Books > Audible Audiobooks > Health, Mind & Body > Exercise & Fitness #256

in Books > Health, Fitness & Dieting > Diets & Weight Loss > Food Counters

## Customer Reviews

The book is filled with facts - surprising and at the same time inspiring. I never had imagined that the one who holds the record for the most number of Triathlon championships is a vegan! I have learnt a few good and mouth-watering vegan recipes too. These are not only protein-rich but also labelled with all the nutritional information. This is the book to go for all those lean muscle builders. It has got many recipes for anyone who are not into bodybuilding too.

I should have read more review before buying, all I seen was the highlighted 5 star book reviews which I think now are clearly fake. One other person said it well "seems to be more of a coloring book" The font is big enough my 4 year old can read it. The book is less then 50 pages. Over half of which are recipes. No good knowledgeable info. Waste of MoneyThe 5 star review's. --Must be paid reviewers. No way this book should get anything better then one star.

This so called book is a joke. It is the size of a magazine with only 15 pages of information and that is being generous because several of those pages were only a few lines. The rest of the 45 pages are recipes and blank pages. I was so angry I called immediately and requested a refund. This is so not worth 10 dollars. Maybe 99 cents from kindle but that is it. In fact I have free kindle books that have more substance.

Short book, leaves you wanting more information. I do like the 15 recipes in the back

Very few pages and almost no information contained in any of them. It seemed like the purpose of the book was to write it as quickly as possible and at as low a cost as possible just to bring some sort of product out. I wouldn't waste any money on it.

Very little content, amateurish presentation. You could do a brief online search for a few articles on vegan bodybuilding and nutrition and get more than you'll find in this book.

Swell book! Great for someone considering a move to veganism or weightlifting.

Not what I expected. For ten dollars it isnt bad but you can find all of these recipes online.
