Customer Reviews

Just took a \$2,000 course on this subject, and bought this book to fill in any gaps. Topics covered in the 3 day course weren't a lot of the important e also covered in this book. But if I hadn't taken the course, I might not have noticed a lot of them as really important because they were very briefly covered. But they are there, so read carefully and take all as important.

This book is AMAZING. It goes into detail and is easy for the common person to understand

Clearly written

Love it
