I looked around at the dusty counter tops, the rugs that needed vacuuming, the dishes yet to be put away. I was on the edge of tears, chastising myself for letting things get so out of control. The temptation to shove everything back and look away from the piles called to me like a sweet love song. But I was tired of the mountains of things around me, fatigued from always running from one duty to the next, exhausted from doing everything but what I felt in my heart was the most important thing; to enjoy my life. My days were frenetic activity, the hours growing shorter and the years left with my children at home flying past me so fast I couldn't keep up with tearing the months' pages off the calendar. I wanted to get off this highway. I wanted the side roadÃ¢Â"the one with the surprise of a fruit stand or a long forgotten picnic table spotted off in the shade of a Weeping Willow. But things felt too deep for me to even think I had a chance at a new life for us. In 2012, I discovered Rachel Macy Stafford online from a friend's suggestion. Her blog, Hands Free Revolution, has held my hand ever since. Rachel reminds me that no matter how overwhelmed I feel today, I can bring myself peace with rest, direction, and a new chance tomorrow. I can make mistakes and start over. I can learn to love more and I will start with myself. This is why today, I am celebrating the release of Rachel Macy Stafford's book, Hand Free Life. It's for anyone who has gone to bed at night, feeling the weight of failure. It's for all of us who begin out day already feeling defeated. If you are the way I am, then you know what I mean when I say that disappointment in ourselves hurts far more than from anyone else. If you set expectations for yourself that you'd never set for anyone else. If you're harder on yourself than you would be to a friend. This is the book for you, no matter who you are. It is impossible to walk away unaffected from Rachel's searing truth and invitation, to start over. It's never too late to do life with more love.

If you're looking for deep, meaningful spiritual teaching, save your money and time. But if you enjoy practical, if often rather obvious tips for living your life more mindfully, this is undoubtedly a good

read. Filled with personal anecdotes mostly about her children, this is a breezy read that won't cause you to pause and ponder much.

I really enjoyed this book. Some people may not be able to see past the examples and stories Rachel tells about her young kids--this may lead you to think this book is only for parents, but I think everyone could benefit from her ideas about fully engaging in your life. She isn't saying you need to give up your technology, she is just highlighting ways to not let that technology shortchange important areas of your life.

This book was life altering for me. I read it. Then I re-read it. Then I turned off my phone and played with my baby. I mean, I really, really hung out with her. I didn't check Facebook, I didn't scan the news, I didn't read "just one" email. I got down on the floor and I was there. And it meant everything to my sweet, sweet girl. I felt like Ebeneezer Scrooge, so incredibly grateful that I hadn't missed it, that it wasn't too late. I keep this book in my purse, just in case I need a kind, nonjudgemental reminder. Get the book. It's a game changer.

This book. Rachel Macy Stafford has a particular gift when it comes to writing about parenting struggles, some of which are age old, and some of which are peculiar to our technologically obsessed times. It feels as though your best girlfriend- the one who LOVES you and you know will tell you the truth- is pointing out what in your heart you already know to be true. We need to slow down. We need to unplug. We need to allow more time for wonder. We need to be less schedule driven. She never lectures, and she is vulnerable about her own struggles raising her girls. I seldom read parenting books because I find myself saying, "I KNOW, I KNOW!!!!" This book made me say, "I know. Oh, me too." I find myself perpetually on the verge of tears, marking pages I want to revisit, making notes- and most importantly, I have stopped several times, put the book down, and sought out one of the kids to hug, or hatch a plan, or NOTICE. This book is a gift.

Picked it up and put it down so many times. I did not read it all, or half for that matter. The title sounded good so I bought it on Audible as well thinking that I can listen to it while on a long car trip. Same result. Never clicked for me. Sorry...

Through personal stories, Rachel shares ways she has gotten back to what really matters - being present in her life and in the life of her daughters and husband. It is easy to see examples in your

own life of the things she mentions in hers, which while initially may be hard to swallow, is encouraging. If she can change and live the life she wants, so can I, so can you. Great advice, great read.

Such a well written and positive book for ANYONE wanting to put family above the noise of life.. and I'm not much of a book person, but can tell you this one is truly easy to read, without making you feel bad about yourself. I could not put it down, felt like my bff was having a real life conversation with just me! Life changing read for the cost of a drive thru lunch.. Go for it, you will not be disappointed, but very encouraged!
