#589 in [Books > Arts & Photography > Graphic Design > Typography](#) #1300 in [Books > Arts & Photography > Graphic Design > Commercial > Illustration](#)

Customer Reviews

I am so confused by the five star reviews... there are no examples of the different styles, no alphabet guides... nothing. It is like a school project, not a published book. I'm as much of a beginner now as I was before the purchase. I honestly feel ripped off.

Obviously wanting to learn but not one example in this book. Waste of time and money. On my way to find another book.

It sucks. It doesn't show anything. asking for a refund.

I was a little disappointed. Even though there's detailed instructions, this book did not include the alphabet in calligraphy. No letters at all, only instructions.

No pictures to show you anything on how to write the letters.

Was not what I was looking for. Was not suitable for child learning calligraphy. Description of book should have specified what age group

No alphabets at all which is very misleading and deceptive. It only gives a history of calligraphy and that is all.

As someone who used to draw a lot and dabbled in calligraphy, this book is a great re-entry into the hobby of calligraphy. From the 'not so obvious' tips to the things to remember, like keeping the nib straight, this book is a great primer on this great hobby, calligraphy is here to stay!!
