Customer Reviews

I have been slowly and surely losing weight on the ketogenic diet for a few months now and love the kind of meals I am able to eat daily. This book is a great compliment to the diet and I found it very helpful- containing many tips and pieces of advice to help you along. The book itself includes many nice recipes that I have already tried including Paleo mayonnaise and Tuna burgers.

I've been eating a diet very similar to this for the past year. I definitely agree with how this book says that fats aren't as bad as they are made out to be. Eating the way this book describes I have greatly improved my overall health. This book confirms to me what I've been doing. I highly recommend this book.

Impressive recipes! This is more than just a cookbook! This serves very well as an informative 'introduction' to ketogenic eating along with so much advice on what to eat, how to cook it, as well as sweeteners, and why we gain health eating this way. I've been a ketogenic eater for 16 years... helping others gain health.. so I didn't 'keep' this book.. I gave it to a very dear friend who is also starting to eat ketogenically. Really worth recommending!
