## Customer Reviews

Sharlene M. Snowdon, MEd, RT (R) (CT) (M), Director of the Computed Tomography Internship

Program (Retired), Radiology Technology Education, Penn Medicine at the Hospital of the University of Pennsylvania, Philadelphia, Pennsylvania.

Still using it for studying

A great study resource!

Fantastic exam review medium!!! Highly recommended!

The more I take practice registry exams the better I feel prepared.

I like the way each chapter is divided with the exact amount of information I need review and understand to pass my boards. I like the way the practice test are set up, it helps me to test my self and have an idea what chapters and terms I need to review more. I think that in order to complete my preparation for the board exam I need to practice the exams online. I highly recommend this book if you are thinking of taking your CT board exam soon

high quality and very value for this price . just fine, good seller. Love this product. just what I was looking for at a reasonable price. Delivery was very fast. my family need it ,

I purchased this book because it had a more recent copyright date than its recommended competitor. Book very poorly edited with typos and some errors in a difficult-to-follow format. Created confusion multiple times while studying. Also errors in the associated test question bank. I'm taking my chances on an older copyright date with more accurate information and in a format I can understand...Mosby's.
