This is a very hard 3.0 solo for trumpet. It comes with the trumpet music and the piano acomp. The hardest part with this piece is getting the timing down. when i first played through it i did not feel that it was that hard until I started to break down the time signatures and dynamics. All I can say is this is a piece for a professional trumpet player and a professional piano player. on the back of the book it tells you there is a good recording of this piece on the CD "trumpet in our time" I would recommend getting the CD and listening to it before you attempt it. Other then that this is a wonderful piece and a great addition to any trumpeter’s repertoire.

It’s a wonderful piece, but unfortunately I only received the piano score, with no solo trumpet part.

Got a 1 at state, so that pretty much says what needs to be said.

Just as I expected. Piano and Trumpet Bb part

Very good!!!

I bought this as a gift for my younger brother who plays the trumpet. He had requested harder pieces of music and so if you're looking for a great song book for the trumpet look no further. There is gorgeous music in this book and the only downfall is that it is a paper, construction paper like cover and so it could be ruined easily. Overall it's a great product though.

This is a wonderful composition! I highly recommend it to my fellow trumpeters.It is challenging but not as difficult as some might think. IF you have a good pianist, which this piece very much requires, then things should go smoothly. This sonata is definitely for advanced high school players and above, it makes a good audition or recital piece. Make sure when you order this you also order the recording by Raymond Mase. It will make your life much easier!

Piano and trumpet sections separate for easier playing.
