Specialized High Schools Admissions Test (SHSAT) TEST CHANGES:
The SHSAT is changing! If you are taking the Fall 2017 SHSAT Exam, you should be aware of the following changes so you can properly prepare for the exam. The old SHSAT test comprised of two sections: verbal and math. The verbal section included five scrambled paragraphs, followed by ten logical reasoning questions followed by 5 reading comprehension passages. The math section included 50 multiple choice questions. The time limit for the exam was 150 minutes. So... what are the new changes you should be aware of?

- The new time limit for the SHSAT exam is now 180 minutes. (30 minutes more than the old SHSAT exam)
- **NO MORE SCRABLED PARAGRAPHS.**
- **NO MORE LOGICAL REASONING QUESTIONS.**
- Verbal section is renamed to the English Language Arts (ELA) section.
- There are 57 questions per section and only 47 out of 57 questions in each section will be scored. 10 questions are field test items which will not count toward the students score.
- The ELA section will include 20 revising and editing questions along with 6 reading passages.
- The math section will include 5 grid-in questions
- All multiple choice questions will have 4 answer choices instead of 5.

Our SHSAT test prep book will help you prepare for the new Specialized High Schools Admissions Test (SHSAT)! Study with confidence, with Argo Brothers!

My son is in a honor class and have done most of the SHSAT practice books available in . He uses this book to prepare for SHSAT in 2016. He hates the book and refuses to do the practices, especially ELA. The rules and guidelines are entirely different from other books which make the

questions seem to be "new" and "different" but instead they are confusing. The Reading section is overly complicated and hard to understand. The Logical Reasoning is also confusing because some questions are vague. In addition, the answer keys are different from the answers and explanations. Some answers are not accurate. The Math is OK but not much of a challenge. Overall this book does nothing but is confusing.

I bought this book for my Son and honestly English section is very confusing and many answers does not make sense. However I tried Kaplan and Barons , tutorverse , they are much better. So i would not recommend anyone to buy this book. Its a complete waste of time and money.

The answer key offers minimal explanations on difficult problems and detailed explanations of simple problems, where no explanation is necessary. As for the support chat, no one ever answers so seems this feature is not actually available. The advertised live chat and supposed detailed answer key were the main reasons for purchasing this book.

Very disappointing book. A lot of the ELA section was too difficult and not on the standards of the actual shsat. There were also many typos and grammatical errors in the book.

it helped me but the test are harder than the actual test and there is some mistakes in the mathematics explanation test 2 #68 it say $7x= 707$ then below it says $x = 707$ which is suppose to be 101

It does not have a link for the 120 Min video explanation that's printed in front of the book. you think that it would be on the first and second page, but can't find anything

It is great with five full length test. It's quite difficult and good to practice. However, some answers are not correct and explanations are quite short and not so convince me.

Really helpful!
