The Incredible Coral Reef: Another Active-Learning Book For Kids

Synopsis

The Incredible Coral Reef, winner of a Teachers' Choice Award and a Parents' Choice Approval, invites kids to explore the dazzling coral reefs and to learn how we can help protect them. The book has loads of activities! Kids can make a wave bottle or a fish print, learn how to adopt a sea turtle, or explore a tide pool with a viewing box. The author's "Reef Report" is a delightful journal of her underwater adventures, which include swimming with stingrays, exploring a sunken wreck, and holding a baby sea turtle. Her stories inspire youngsters to respect and protect the living reefs, and she gives practical advice on how to do it. The Incredible Coral Reef is meticulously researched, contains up-to-date information, beautiful photos and artwork, and helpful references, including a glossary, a bibliography of books for kids about the rainforest, and lists of environmental organizations and rainforest exhibits. Great teacher resource! Reproducible pages. Grades 3-8.

Award-winning author Toni Albert, M.Ed., is the author of thirty-five books, which are used by teachers and students throughout the nation. Many of her books have been about endangered wildlife and endangered wildlands and reflect her deep concern for the environment. To write The Incredible Coral Reef, Ms. Albert and her husband Robert traveled to the British West Indies to do underwater research. Toni Albert is the owner of Trickle Creek Books, which is committed to "teaching kids to care for the earth." She lives with her husband, their cats Bailey and Charlie, and their dog Abercrombie on twenty acres of wooded land near Mechanicsburg, Pennsylvania.

For any teacher or parent of primary age children interested in the preservation of our ocean habitats.
