## Customer Reviews

It's a stretch sometimes to hear the original song in what you are playing...

Great book. Terribly complex but if you wanna thrash -- its more than just strumming chords.

I bought this as a gift for my brother-in-law and he loves it. This is a great book for any ukulele player who wants to have some fun.

Good stuff all around

Great book, well done.

I bought this as a Christmas present for my brother. Neither one of us even knew these things existed and when he opened up the package it was priceless. It has notes and tabs and contains some of Metallica's best hit songs. It's pretty simple to figure out and easy to play.

Amazing. Sounds epic on my electric Les Paul Ukulele. Neighbors come from blocks away to here me jam on this apocalyptically rad Metallica awesomeness.

Seems like a good book haven't attempted but to read it so far and there is no reference or how to read it tutorial for a beginner like myself.. Guess for experienced readers only - does have tab charts which are nice.. Hope to be able to decode it and get to playing soon.. can anyone tell us how to read this sheet music..? Book is nice and covers many wanted songs but when I can figure it out will be realized..
