Baby loves these. This one is a little better than the farm book about making boring, lazy "grass" feels rather than the animals. She cannot be bothered to touch these and I don't blame her. Most pages have an interesting thing to touch. Her favorite book of those we have is the Wild Animals one.

I purchased a bunch of these books for my foster daughter, as she was so intrigued with one that we got from her doctor's office. They are our go-to books for nighttime and long car rides. If there is one slight downside, she thinks that all board books are touch-feel books. She's constantly scratching and running her fingers over the illustrations of other books. It's pretty adorable. =)

I was excited for my son to try out this book because he loves to grab and scratch at surfaces.

Unfortunately the surfaces that have pieces to feel are so small you can hardly feel them at all. There are many very shallow textures that are hardly noticeable. Only the fur ones are okay to feel but they cover only tiny bits of the animals. Super disappointed.

Super cute and great price when on sale. I love the sensory aspect of this book. Would buy again

Best books ever for little ones. Durable and soft to touch

The textured portion of each page is very small (the cat's eyes and collar), but my 16 month old likes it.

Great touch and feel book for the littles.

Very cute book and cute pictures
