Customer Reviews

Gordon Lang is a director of Sotheby's Educational Studies.

Nice little book, very detailed, easy to take along when I go to garage and estate sales.

I received this book in a timely manner and is in great condition. I love this also, as I can put this in my purse for reference when I'm shopping.

This publication was most helpful in identifying the vast array of pottery and porcelain marks found on various collectible items. As these marks can often be confusing it was a pleasure to find such a simple, concise and common sense identification log in one compact volume. Well done.

Thank you!

Timely delivery, product as described -- very satisfied

Very informative

Recommend!

I wouldn't bother with this book. Difficult to find marks. Go on the internet and google what you need and find superior pages showing pottery and porcelain marks. Just make copies, stick in a binder and go off shopping for antique china!
