Age Range: 8 - 12 years

Grade Level: 3 - 4

Customer Reviews

Allison Lassieur has written more than 100 books on many topics, including history, biography, science, and current events. She has also written fiction novels and short stories, puzzles, and activities. When she isn't busy writing, Allison enjoys knitting, spinning, and reading good novels. Allison lives in Trenton, Tennessee with her husband, daughter, and a houseful of pets.

I really enjoyed this book. For this historical event, it's fun to see how choices led to different outcomes upon the Titanic. Most history is taught as a particular outcome, this shows how

contingent history is on choices people make in real time and that different people experience history differently. I also enjoyed the "Why did some survive," portraits of survivors, glossary and quiz--providing more detail beyond the experience of the story. I bought this for my Kindle and viewed it on iPad as well. While I generally prefer the Kindle as a reader, at least the illustrations were in color on the iPad. On the Kindle, they were grey-scale. Their quality was not as bad as illustrations from other books that I've seen on the Kindle, so they exceeded my expectations. But the iPad was still a better reading experience. My only criticism of the book has to do with the residual disappointment I have that this was not an "enhanced" eBook. Embedded video and sound would have been a lot of fun. That wouldn't have worked on the Kindle reader, but would have been fun on an iPad or Kindle Fire. More pics would have been nice too. I think this whole interactive series is doing is great. It leverages the interactivity that the format makes possible, makes the reader literally own the outcome of the story, and it's engaging. I hope to see a lot more of this type of innovation in the future!

This is a good book. I bought it for a 9 year old who is very interested in Titanic and he loves it. It's been passed around to all the kids so they can all see how they'd do. It's also made him/them more curious to learn about Titanic.

Choose your own way the story progresses in so much fun --- my grandsons like this book!

son loves these books!

Maybe not a perfect fit for younger students (some passengers "don't make it") They did enjoy being able to be interactive during the story.

My youngest daughter (age 10) is so into these books. She loves trying out different choices to see where it leads.

Awesome

It really is all about survival when you read Can You Survive the Titanic? As the reader, you get to choose which path the plot will take and ultimately, if the characters will live or die in the Titanic disaster. Talk about some power! There are three different plot paths to choose from. Those branch

out and there are twenty-one different endings. Wowza! I am the curious type and I am reviewing the book, so I read them all and ended up a little confused. For someone just reading one or two choices though, the plot would easily make sense. Middle graders will have fun making choices and learning more about the Titanic's fateful voyage. I appreciate the amount of research done by the author. **RATING 4 Liked** **COVER COMMENT** This cover conveys the desperation of the Titanic passengers as they struggle to survive. Look at that ship going down in the background!
